

MODERN FOREIGN LANGUAGES DEPARTMENT INFORMATION

The Hollins Technology College's MFL department is a hard working enthusiastic and collaborative team. We are energetic and forward thinking; pupils enjoy their language lessons and are keen to do well.

Provision within MFL is now considered to be a strength of the school. Uptake of MFL at KS4 has increased steadily and we are able to offer both French and Spanish at GCSE. All rooms within MFL are suited. Language classrooms are equipped with data projector and interactive whiteboard, and we make regular use of languages websites and the school's ICT facilities.

This department regularly mentors PGCE students and NQTs so is well geared to supporting staff at every stage of their career.

The AQA specification is followed in both languages and last year over 50 students sat a GCSE in French or Spanish with 71% achieving A*-C of which 37% of grades were A and A*.
