This LA-generated report is for use by school and internal LA use. Use of this data must comply with the Data Protection Act 1998 and is supplied solely for the purpose of school improvement. Users must ensure that the data is processed securely, is used only for its intended purpose and is not subject to any unauthorised use or disclosure. Wider sharing of the report is at the discretion of the school. It should be treated as a draft document. Schools should carefully check the information included as this report is compiled from a variety of sources.

Whilst considerable effort has been made to ensure the information is correct there may be instances where the source data is inaccurate. At present some of the 2009/10 information has not been validated due to its provisional nature. To feed back any inaccurate information within this report, please contact the Professional Support Team.

- 1) Information source: January School Census (2009/10 unvalidated).
- 2) All information is LA calculated.
- 3) Lancashire averages shown by number are rounded to the nearest whole number and may not sum to the 'total' value shown.
- 4) Inward data is counted cumulatively. Outward data is counted by year.
- 5) **Inward Mobility** Pupils are classified as joining late if their date of entry to the school is **after 30 September in Year 7**. This information is obtained from the 'date of entry' field in the January School Census.

Notes: 1) Use this page in conjunction with the attached map which displays pupils' locations.

2) The SOA codes are NOT Postcodes

3) The SOA code OAGG is the aggregate of all the SOAs where fewer than 5 pupils reside for Nursery, Primary, 6th Form and Special and 10 pupils for Secondary.

4) A Super Output Area is a geographical area used in the 2001 census, for a more detailed description refer to the guidance notes.

5) The housing domain measures access to housing and key local services. Deprived households without ready access to transport may tend to live in close proximity to key public services, hence the most deprived may grade A* under this indicator.

6) This analysis has been completed using the revised IMD 2007. This may result in school seeing changes in the level of deprivation shown for the SOAs included in this analysis.

7) NOR shown is taken from the January School Census.

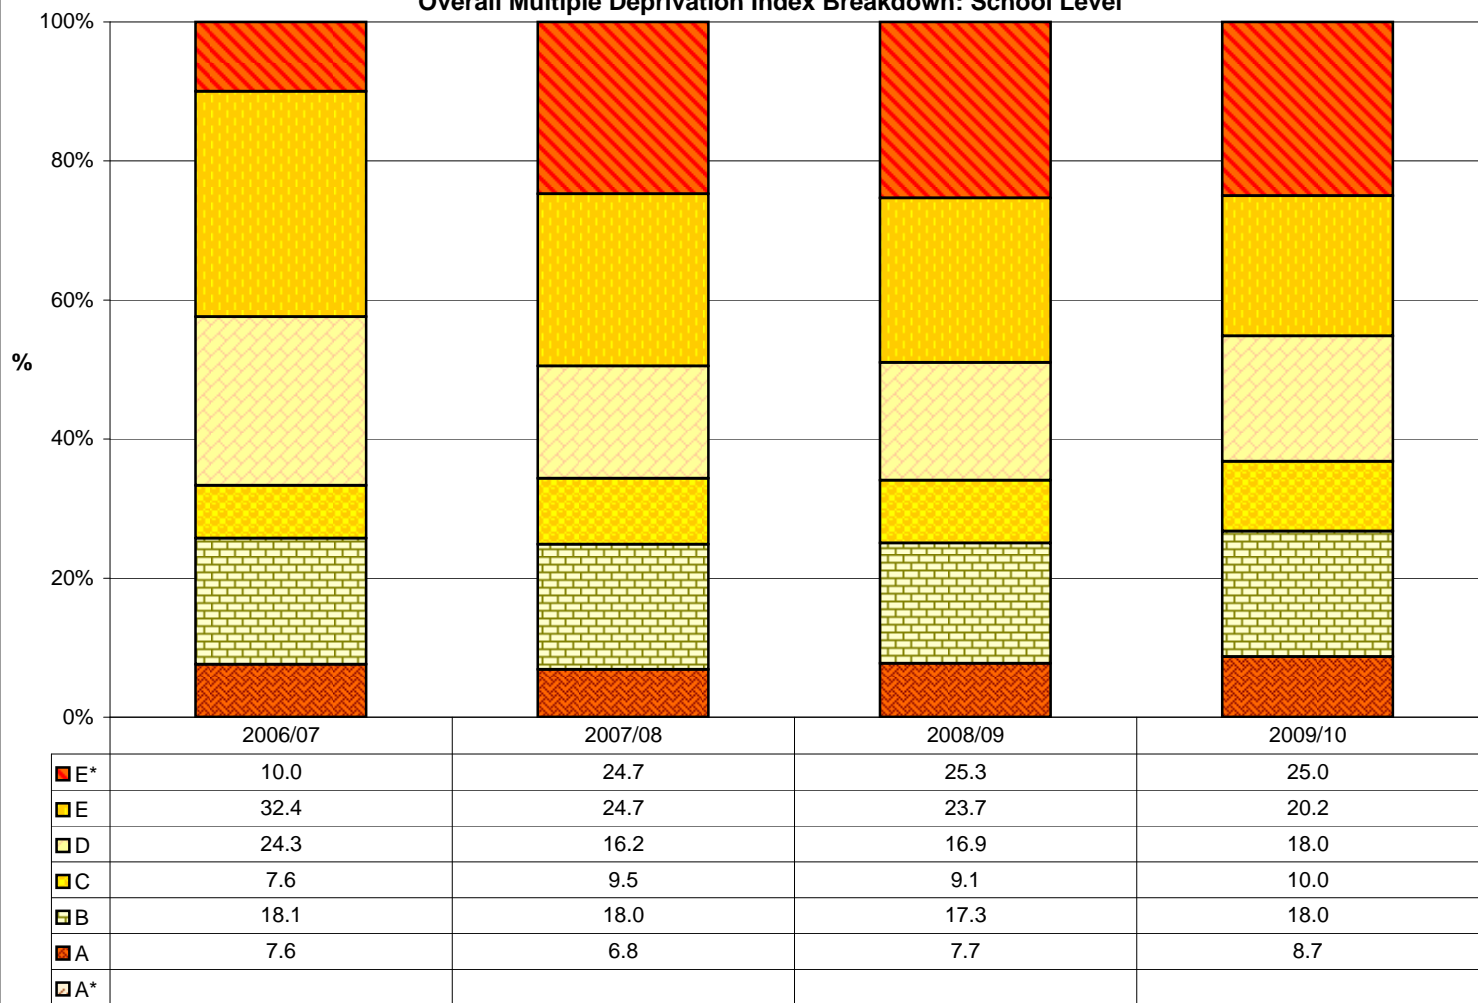

8) For Special Schools the IMD data refers to pupils in years R to Y14; ie it is whole school rather than by phase.

Note:

- Information sources: The school information is LA calculated based on pupil level data downloaded from the Key to Success website. Lancashire and national information relates to LA maintained schools obtained from the DfE SFR National Curriculum Assessments in England.
- 2009/10 results are revised based on data checked by schools prior to the publication of the Primary School Performance Tables. School dated 12/01/11 and are based on Teacher Assessment as not all schools administered the tests in this year. Lancashire and national published on 14/12/10.
- The analysis has been prepared by matching the pupils in your school on the Autumn 2010 School Census Day (Years 7 – 11) and January 2010 (Year 12) with the LA KS2 Database or if not available the Key to Success National Dataset.
- The 'Matched Pupils' column indicates the number of results the PST has been able to match using a pupil's UPN and may differ from the NOR for the Year Group in the school.
- If the value of 'No. Matched Pupils' is less than 85% of the 'School Census NOR' for the year group it is highlighted in red. This indicates that the results should be treated with caution.
- TA Points: The LA has calculated TA points based on overall levels and cannot be compared to Test points. This information is not available for England LA.

- Note:**
- 1) Information sources: Calculations are based on unvalidated 2009/10 KS3 teacher assessment results – datafeed 27/09/10 and final KS2 pupil test level data downloaded by the LA from the Key to Success website.
 - 2) Results have been calculated by matching schools' 2009/10 KS3 results to the pupils' KS2 results held in the LA's database or if not available the Key to Success National Dataset.
 - 3) Figures with a green background highlight pupils that have made a least 2 levels progress.
 - 4) Figures with a blue background highlight pupils that have not made 2 levels progress but are included in the denominator for %2 levels progress.
 - 5) Figures with no highlighting indicate pupils not included in the denominator for % 2 levels progress.
 - 6) KS2 Level 'Other' indicates pupils achieving any other KS2 level not shown in the breakdown and also those pupils with no matched KS2 result.
