- Note:**
- 1) See Technical Guidance Notes for information sources.
 - 2) 2008/09 Absence and Persistent Absence information relates only to Autumn and Spring Terms combined. Full year information was not available at the time of publication.
 - 3) 2006/07 Absence - changes in the methods of data collection mean that data is only available as percentages, no longer as numbers of pupils.
 - 4) Persistent Absence is defined as a pupil who during half terms 1 to 5 has 64 or more sessions of absence. However, in identifying schools as high PA for intervention in 2010-11, the DCSF threshold will be the percentage of pupils with 52 or more sessions of absence during half terms 1-4.
 - 5) Blanks indicate that the information was not available at the time of publication.

- Note:**
- 1) See Technical Guidance Notes for information sources.
 - 2) CiC data correct as of the January School Census.
 - 3) %CiC values - percentage values have changed from 06/07 due to a change in method of calculation.
 - 4) Missing information - Some schools may see a difference between the number of pupils on roll and the number recorded in the Ethnicity tables. This is due to gaps in the information supplied in the January School Census, which may be a result of schools being unable to obtain the information from the parents.

Notes: 1) Use this page in conjunction with the attached map which displays pupils' locations.

2) The SOA codes are NOT Postcodes

3) The SOA code OAGG is the aggregate of all the SOAs where fewer than 5 pupils reside for Nursery, Primary and 6th Form and 10 pupils for Secondary.

4) A Super Output Area is a geographical area used in the 2001 census, for a more detailed description refer to the guidance notes.

5) The housing domain measures access to housing and key local services. Deprived households without ready access to transport may tend to live in close proximity to key public services, hence the most deprived may grade A* under this indicator.

6) The analysis for 2008/09 has been completed using the revised IMD 2007. This may result in school seeing changes in the level of deprivation shown for the SOAs included in this analysis.

7) NOR shown is taken from the January School Census.

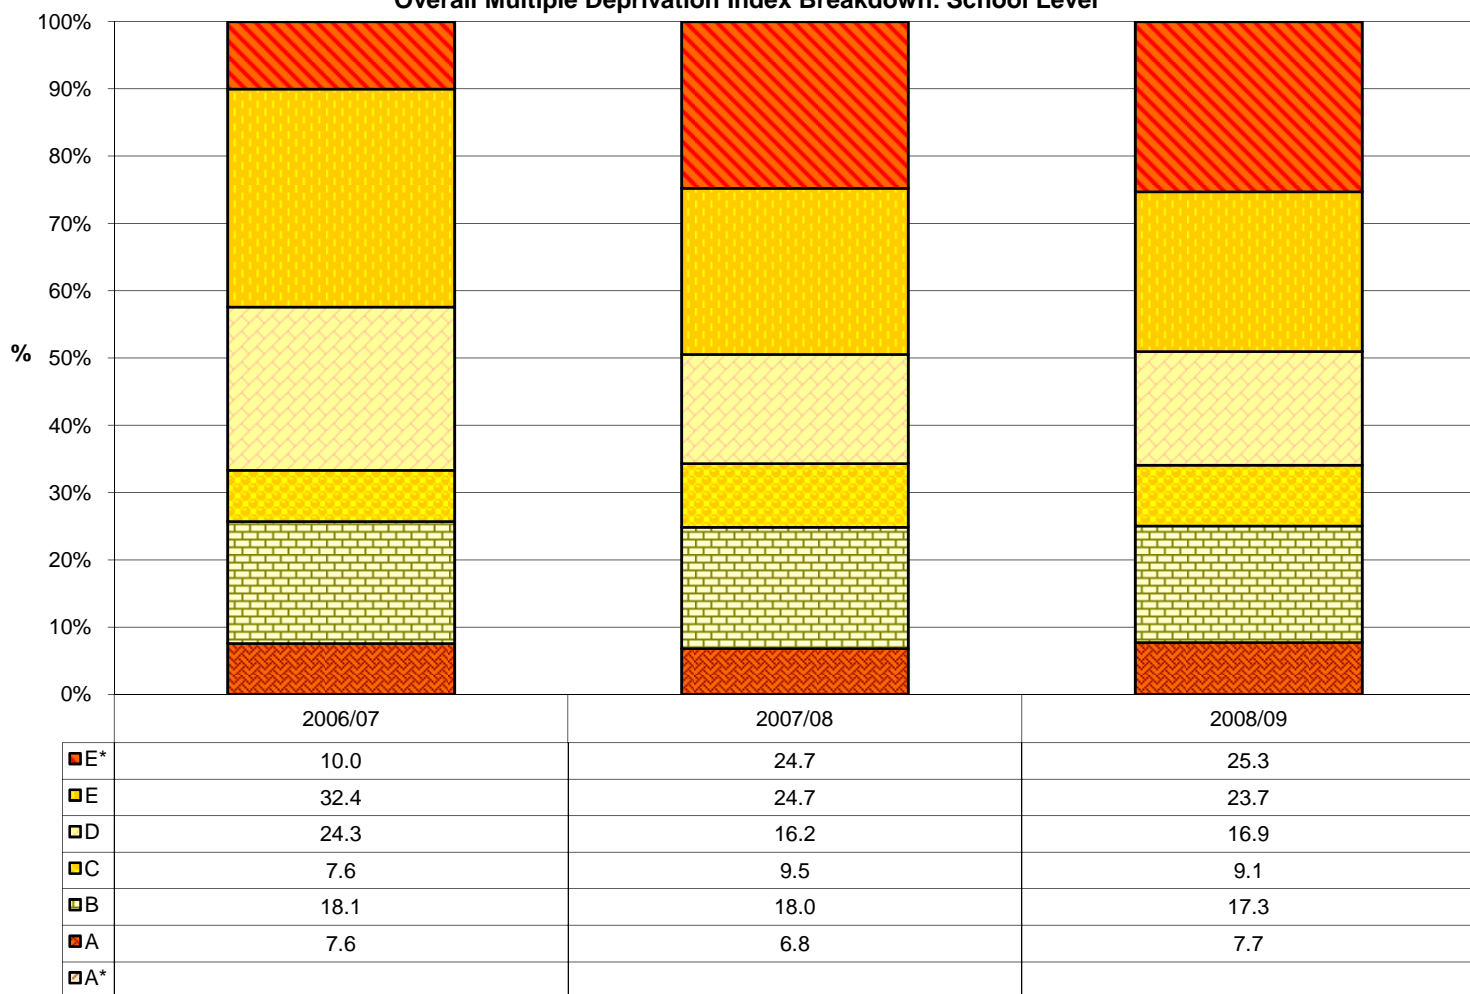

8) For Special Schools the IMD data refers to pupils in years R to Y14; ie it is whole school rather than by phase.

Note: 1) 08/09 results are revised figures based on data checked by schools prior to publication in the Achievement and Attainment Tables - datafeed dated 01/12/09.

2) All school level results are based on matching pupils in the school on the Autumn 09 School Census Day (Years 7 and 11) and January 09 (Year 12).

3) The 'Matched Pupils' column indicates the number of results the PST has been able to match to the LA KS2 database and may differ from the NOR for the Year Group in the school.

4) If the value of 'No. Matched Pupils' is less than 85% of the 'School Census NOR' for the year group it is highlighted in red. This indicates that the results should be treated with caution.
