

## **ACTIVITY DAY**

Activity day is a reward at the end of the year.

Many different events take place and a lot of these involve students going off-site.

It is therefore vital that no member of staff is put into the position of supervising any student who the school believes may cause problems, or may have already caused significant problems during the year.

The following information will be taken into account when deciding who will / will not be permitted to take part in activities off-site;

- Headteacher's detention records
- Attendance and punctuality
- Behaviour points
- Room 19 referrals
- RESPECT room referrals

All students will be treated on an individual basis and once year coordinators have the names of any students who are a cause for concern, they will consult with SLT to look at the issues surrounding each individual and to make a decision.

All decisions will be made by FRIDAY 26 MAY 2017 and any students whose conduct deteriorates following this date will also run the risk of not being allowed to participate in off-site activities.
